

REMARKS

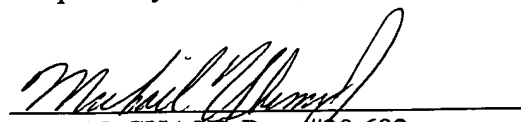

Applicant has inserted the requested title and amended the claims as suggested by the examiner.

In response to the examiner's rejection of January 19, 2006, reconsideration and removal of such rejections is respectfully requested. The reasons for this request are that applicant's claimed invention is directed to devices which results in a three-layer material flow. As applicant understands the cited references, only a two-layer material flow is shown therein. Thus, applicant's claimed invention is not rendered obvious thereby.

As to the request for corrected drawings applicant does not understand the general objections made therein. Applicant's copy indicates that the lines and numbers are clear and legible. Accordingly, applicant respectfully requests clarification.

Having responded to the examiner's office action, reconsideration and allowance of the now pending claims is respectfully requested. A \$510 check for the three month extension fee is enclosed.

Respectfully submitted,
